Dear Sir:

RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT

The amendment was checked as non-compliant. The Preliminary Amendment has been resubmitted with the current status of the claims indicated. In addition, applicant is further disclosing Wellons, et al, U.S. Patent Number 7,248,688, which discloses methods and systems for enabling a virtual physician office that uses a network based physician practice application. It does not disclose the mobile-intra operative microscopic diagnosis laboratory of the current invention. Attached to the Preliminary Amendment as first filed was a copy of the case as originally filed and it is not duplicated here. The status of the claims as set out are the current status of the claims.
